

CREATIVE SOUND SOLUTIONS SDX12 SUBDUCTION SUBWOOFER

Are you ready for SubDuction?

The SDX12 subwoofer is ideal for both home theater & car audio environments and produces prodigious amounts of output with excellent sound quality. Designed to work great in sealed or vented/PR enclosures of reasonable box size, the SDX12 is a price/performance leader among high performance subwoofers. See the application notes for recommended enclosure designs.

- dotted non-pressed paper cone with NBR surround
- high power, low inductance design, 2 layer 3" (76mm) copper voice coil and 2 aluminium and 1 copper shorting rings inside the magnet
- forged and machined T-yoke and top plate with larger radiused pole vent for low aerodynamic noise
- high excursion spider with integrated lead wire
- attractive cast aluminum basket design with cast aluminum trim ring
- sealing gasket and mounting hardware included
